Career Objective

To secure a challenging position in a reputable organization where I can effectively contribute my full-stack development and AI/ML skills, continuously learn and grow, and be a valuable asset in achieving the company's goals while building a successful career in the field of Computer Science and Cloud Computing.

Education

GMR Institute of Technology, B.Tech in Computer Science and Engineering (AI & ML) 2023 – 2026

- CGPA: 8.22 / 10.0

Projects

SelfSpace – Mental Health Web Platform [GitHub Link](#)

- Developed a full-stack mental health platform using React and Spring Boot featuring mood tracking, an AI chat companion, real-time community chat, gratitude journal, and guided breathing exercises.
- Built secure REST APIs with JWT-based authentication; integrated email notifications and a curated mental health resources section.

Voting Awareness Chatbot [GitHub Link](#)

- Developed an AI-powered multilingual chatbot educating citizens about elections, voting rights, and democracy across 10 Indian languages using Generative AI and NLP.
- Delivered context-aware, language-sensitive responses tailored to diverse Indian demographics, promoting civic awareness and voter participation.

TrustVault – Cloud Secret Management Platform [GitHub Link](#)

- Built a secure cloud secret management platform integrating AWS IAM to monitor users, manage and rotate access keys, and trigger real-time security alerts on suspicious activity.
- Developed a React dashboard and Node.js backend to visualize secret usage, enforce cloud security policies, and centralize credential management effectively.

Skills

Programming & Web Technologies: Java, Python, C, JavaScript, HTML, CSS

Frameworks & Backend: React.js, Spring Boot, Node.js, REST APIs, JWT Authentication

Machine Learning & AI: Generative AI, Prompt Engineering, ML Fundamentals

Cloud & Databases: AWS , , Google Cloud Platform, MySQL

Tools & Platforms: Git, GitHub, , VS Code,

Soft Skills: Teamwork, Adaptability, Problem Solving, Quick Learner

Work Experience

ByteXL × GMRIIT On-Campus Collaboration (*Rajam, Andhra Pradesh*) Jun – Jul 2024
Full Stack Java Developer Intern

- Developed a full-stack Leave Management System supporting Employee, Admin, and HR roles with complete role-based access control and JWT authentication.
- Implemented email notification system and analytics dashboard using React, Spring Boot, Node.js, and MySQL following industry-standard RESTful API practices.
- Project:Leave Management System** [GitHub Link](#)

Certifications

- AWS Academy:** AWS Academy Graduate – Cloud Foundations Sep 2025
- NPTEL – IIT Kharagpur:** Ethical Hacking Jul–Oct 2025
- Coursera (Vanderbilt University):** Prompt Engineering for ChatGPT Dec 2024

Publications

- Neuro Symbolic Deep Learning: Uniting Data Driven Models with Logic Based Reasoning**, IJRPR, Vol 6, Issue 11, ISSN 2582-7421, Impact Factor 6.844 Nov 2025
